SUMMARY

Software Developer with **3+ years** of experience building cross-platform apps using **Flutter** and **Dart**. Skilled in **BLoC**, **Provider**, **GetX**, **MVC**, **RESTful APIs**, **Firebase**, and **responsive UI** design. Strong in **debugging**, **performance optimization**, and **Agile development**.

SKILLS

- **Languages & Frameworks:** Flutter, Dart, Python, FastAPI, HTML, CSS
- **State Management:** Provider, GetX, BLoC, Cubit
- **Architecture & Principles:** Clean Architecture, MVC, DDD, Agile Methodologies
- **Tools & Platforms:** VS Code, Android Studio, Xcode, Postman, Git, GitHub, Jira, Figma, Firebase
- **Others:** OOP, DSA, Unit Testing, Play Store Deployment, App Store Deployment

EXPERIENCE

Senior Flutter Developer   Apr 2025 - Present
Tradiify   Dubai, UAE

- Built a custom **LMS platform** to support trading education via videos, reading content, and live interactive sessions.
- Implemented state management using **Provider**, resulting in an **80% performance improvement** and smoother app navigation.
- Integrated key features such as **course browsing, mentor following, session booking, quizzes,** and **push notifications** using **Firebase Auth** and **Firebase Messaging**.

Senior Flutter Developer   Mar 2024 - Mar 2025
Ginni Social   Dubai, UAE

- Developed a **social media app** with features like **feed, reels, stories,** and **one-to-one chat** with **media** and **reel sharing**, attracting over **150,000 active users** within the first 3 months.
- Built user profiles with follow/unfollow, block/unblock, and a **referral reward system** that incentivized ad views and increased user engagement, resulting in a **40% boost in user retention**.
- Integrated **AdMob monetization**, **Firebase Auth & Messaging**, and **content view tracking**, while managing app state via **Provider** and backend using **REST APIs** and **Socket.io**.

Flutter Developer   Jan 2023 - Mar 2024
OONZOO Portal L L C   Dubai, UAE

- Developed an **e-commerce platform** with **customer** and **vendor apps**, enabling **product browsing**, **purchases**, and **inventory control**, resulting in over **1000 successful orders** in the first 6 months.
- Implemented features like **location-based discovery, category-wise navigation, cart, checkout, Stripe** and **COD payments, order tracking, and return/refund flows.**
- Built vendor tools for **inventory management**, **pricing control**, **coupon scheduling**, and a live **sales analytics dashboard**, helping vendors manage over **2000 products** daily.

EDUCATION

Flutter Mobile App Development   May 2022 - Dec 2022
Brototype , Kochi

Bachelor of Computer Applications   2018 - 2021
University of Calicut, Kerala
